

MOHIT KUMAR

Software Engineer | Full Stack Developer (JAVA)

+91 8448150174 | mohit.dev008@gmail.com | New Delhi, India | [GitHub](#) | [LinkedIn](#)

EDUCATION

- **Delhi Technological University** – B. Tech (EE) **CGPA : 6.88 - 2026**
- **Kendriya Vidhyalaya No. 3 (CBSE)** - Class 12th **82.1% - 2021**
- **Tagore Public School (CBSE)** - Class 10th **83% - 2019**

TECHNICAL SKILLS

- **Languages:** Java, C++, SQL
- **Frontend:** HTML, CSS, JavaScript (ES6+), React.js, Tailwind CSS, Redux
- **Backend:** Spring Boot, Spring Security (JWT), Hibernate, Microservices
- **Database:** MongoDB, MySQL
- **Tools/DevOps:** Git, Postman, Render, Maven, Docker, AWS
- **Core Concepts:** OOPs, DBMS, OS, DSA(C++)

PROJECTS

JobHook - Job Portal Website — [Live Demo](#) | [GitHub](#)

Tech Stack: Java | Spring Boot | React.js | Redux | MongoDB | JWT | Tailwind CSS | Docker | Render |

- Built scalable full-stack job portal with user & recruiter dashboards using **Spring Boot** and **React**.
- Implemented secure **JWT-based authentication** and role-based access control (**RBAC**).
- Designed optimized job search using **MongoDB** filtering and indexing.
- Improved API response time by **~25%** through query optimization and efficient data handling.
- Containerized and deployed application using **Docker** and **Render** with **MongoDB Atlas**.

Money Manager - expense tracker website — [GitHub](#)

Tech Stack: Java | Spring Boot | JWT | Docker | MySQL | React.js | Tailwind CSS |

- Built expense tracking web app with **JWT-based authentication**.
- Implemented **ACID**-compliant transaction handling with **MySQL**.
- Developed interactive dashboard using **React Charts** for data visualization.
- Automated daily expense reports using **Spring Scheduler** and **Java Mail API**.

PROFESSIONAL EXPERIENCE

ThinkThrough

April 2025 – July 2025

Java *Backend* intern

- Developed scalable **RESTful APIs** for analytics processing and data aggregation.
- Improved system reliability using structured **exception handling** and **centralized logging**.
- Managed build lifecycle and dependencies using **Maven**
- Designed backend services using **Spring Boot** following **MVC architecture**.

POSITIONS OF RESPONSIBILITY

- Mentored 20+ students under Delhi Govt. initiative on academics & career planning.
- Guided students in academic planning, study management, and career choices.
